

HIDDEN NEST

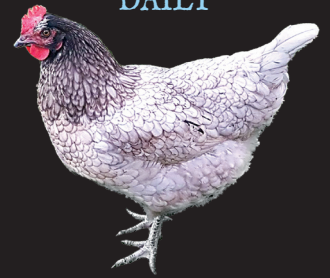

SPECIALTY EGGS

HEIRLOOM BLUE EGGS

NO ANTIBIOTICS • NO HORMONES* • SMALL FLOCKS ON FAMILY FARMS

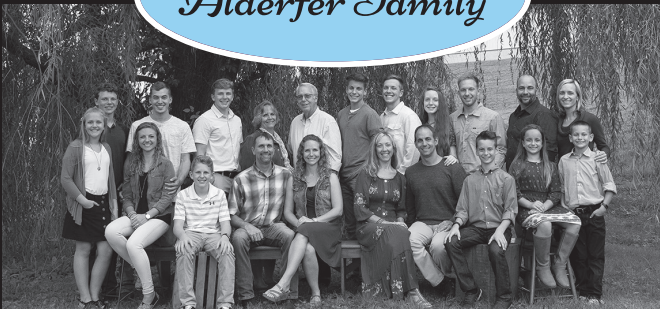

HAND-GATHERED DAILY

Hidden Nest specializes in eggs from small-scale, family farmers. These farms are located in central PA and are hand-gathered daily. Since these Cage Free hens are raised on NON-GMO feed and can roam freely outside throughout the day — they produce a full-flavored, high-quality, dark yolked, and nutritious egg. Your purchase of Hidden Nest Specialty Eggs supports these farmers' livelihood and is encouraging the continuation of local, sustainable farms.

THE Alderfer Family

From Farm to Table

Our 5th generation family farm overlooks the peaceful, rolling hills of Southeastern, Pennsylvania. In 1998, our family decided to make a healthy change and produce the most nutritious, purest, natural, organic egg we possibly can.
